

EVE CONTEMPLATING AN APPLE

Tupelo

GENESIS 3:6

*The woman saw how beautiful
the tree was and how good
its fruit would be to eat...*

While visiting my brother-in-law in Georgia, he introduced me to an acquaintance of his who carves birds from tupelo wood. I bought a large block that I used to carve a 30" heron. There was a small, triangular piece of wood left over and its beautiful, light color seemed like the perfect piece for a carving of the world's first woman.
